QIB / Invest in ME - Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS)

Working with the Quadram Institute of Bioscience researching and improving clinical outcomes for patients with Myalgic Encephalomyelitis / Chronic Fatigue Syndrome.

We have an exciting GP Fellowship opportunity to share with you.

The Quadram Institute of Bioscience and the Myalgic Encephalomyelitis / Chronic Fatigue Syndrome charity Invest in ME are co-hosting a research Fellowship for 1 year. This opportunity will see a GP work with a world leading team of researchers studying severely affected ME patients, and the interactions between the gut microbiome and the gut-brain axis. The successful applicant will assist with ongoing research, have direct patient contact, may have the opportunity to contribute to a clinical trial and work in state of the art laboratories at the research centre in Norwich Research Park, NR4 7UQ.

Job Description

Further details on what the GP fellow will work on throughout the Fellowship can be found attached and embedded below.

ID for OIR

Employment:

The Fellowship requires that a GP is practising for 2 days (4 sessions) per week performing standard patient facing practice.

There are two distinct employment options with this opportunity:

- 1) You are already employed in general practice, and we would work with you and your employer to organise the time and funding to complete the Fellowship.
- 2) You do not have an employer currently, and we would work with you to identify a practice that would support your employment during the Fellowship*

*Please note, this is not a guaranteed offer of employment in general practice. But rather we will work with you to find a suitable practice that would be happy to support you on the Fellowship.

Fellowship Structure:

In addition to completing 2 days (4 sessions) per week in general practice. The Fellow will spend 1 day (2 sessions) per week in this research post AND 1 day (2 sessions) per week completing education and training that complements the nature of the Fellowship.

The additional days / sessions in the research post and in the education and training are funded respectively.

Education:

The successful applicant will receive a grant of up to £5,000 to pay for courses and education relevant to the Fellowship.

Salary:

Your sole employer would be the GP practice.

Salary negotiable in places:

- Practice, negotiable (2 days per week)
- Salary with the Quadram Institute of Bioscience (1 day per week) non-negotiable £18,964 PA.
- Salary whilst on protection education and learning (1 day per week) non-negotiable £18,964 PA.

Application:

Applicants are to email a short cover letter and CV to Pippa Holbrook philippa.holbrook@nhs.net.

If there are any questions please contact:

- Richard.Taylor29@nhs.net for any queries regarding funding, employment, education or other general queries.
- or Professor Simon Carding Simon.Carding@quadram.ac.uk for questions related to the ME research.

Public Health, NCC - Population Health Management

Working with Public Health to assess health needs and reduce health inequalities.

We are excited to announce we are supporting a GP Fellowship hosted at Public Health at Norfolk County Council.

The fellow may work on some key areas identified by Public Health, **but upon application for the opportunity, GPs may submit their own proposal for consideration if they wish.**

The fellow will also help to inform a population health management approach for PCNs, identifying best practice and sharing across the STP.

CCG – Training and Education Clinical Lead

Working with the Norfolk and Waveney Clinical Commissioning Group to provide clinical leadership to enhance training and education for primary care.

We are excited to announce we are supporting a GP Fellowship hosted at the Norfolk & Waveney CCG. The CCG is looking for a GP to provide their clinical insight into the Norfolk and Waveney Training Hub – which is responsible for supporting training and education to all primary care colleagues across the Norfolk and Waveney geography.

The Training Hub is underpinned by Health Education England, with the plan of maturing to meet and deliver the eight core functions of a fully developed Training Hub – as identified by HEE’s Training Hub Maturity Matrix.

The Fellow would co-chair the Primary Care Training Hub Steering Group, and would help to shape Norfolk and Waveney’s primary care workforce education strategy and plan for the future, helping to ensure the primary care workforce of today and tomorrow are ready for the forthcoming challenges.

Job Description

Attached is a job description / person specification that outlines the opportunity in greater detail.
